

## REPORT ON MISCELLANY, 2023 LAUNCH PROGRAM

The third electronic version of our college magazine, Miscellany 2023, was launched on March 23, 2024 in a programme organised jointly by the Magazine Committee and the Cultural Club. In the presence of the Principal, faculty members and students, the flipbook version of Miscellany was unveiled for everyone to view and read. The link will be available on the website for everyone to access. The launch programme was marked by a cultural programme which included performances by our students to honour and celebrate the brilliance of the legendary Satyajit Ray. Other performances, in addition to an opening song, included contemporary dance choreography on a revisited, modern-day version of a Tagore song as well as a contemporary song-and-dance sequence on the evolution of an individual during the journey of life. An audio-visual journey of the college from its inception till date was prepared by three students and the video was played as an apt conclusion to the day's events. Posters prepared by the students to mark International Women's Day, to acknowledge Nobel Prize winners in Physics and the success story of Chandrayaan-III, were also displayed digitally. Approximately 50 students from Semester 3 and Semester 5 were present for the launch programme.

Given below is the link of Miscellany 2023 flip book (to be published on website)
