

# GOKHALE MEMORIAL GIRLS' COLLEGE

## Best Practice IV

### Title: Annual Blood Donation

This is a voluntary activity conducted annually by the faculty members of the Blood Donation Committee for the staff and the students. This event is generally organized to commemorate the death anniversary of the Founder-Principal DR. S. E. Rani Ghosh of the 18<sup>th</sup> of November every year.

Altruism and empathy are the main factors underlying blood donation. Even if voluntary, this activity instill a deep sense of fellow-feeling and social responsibility among students. It is not simply an “individual act” but a real “social action”.

Prior to the day of blood donation an awareness workshop is conducted by the members of the Association of Voluntary Blood Donors, West Bengal to motivate the students to participate in this event.
