

Blood Donation Camp Report

The College along with its NSS Unit 1 in collaboration with Association of Voluntary Blood Donors, West Bengal organised the Voluntary Blood Donation Camp on 28th September, 2024. For years now, the college has been associated with this noble service. To spread awareness about the importance of donating blood an awareness talk is held prior to the Blood Donation Camp. This year, the awareness talk was held on 24th September. Students turned up in large numbers for the talk to know the basics about donating blood. The awareness talk has been very useful as many came forward to be a part of this life saving procedure on 28th September, 2024. We had approximately 35 donors. Both teaching, non teaching staff and above all the students of the college voluntarily donated blood thus making a significant contribution to the overall well being of the society. This act of kindness and selflessness is a testament to the noble spirit of humanity. To perform routine donor evaluation and monitoring, including physical examination of the donor was conducted by a medical officer from S.S.K.M. Blood Bank.
